Friday and Saturday, June 25-26

REX BEACH'S "THE BARRIER"

The great new production of Rex Beach's Yukon Masterpiece

ALSO A GOOD TWO REEL COMEDY

CLARESHOLM LOCAL NEWS

Watch for particulars of the big day in Clareholm.

Earl Atkinson is building a fine bungalow on the east side.

The Tea Kettle Inn, opposite the station, will open shortly.

The Conservative meetings here have been well attended.

The Bank of Commerce is being brightened with a new coat of paint.

There's a big day coming for Clareholm. Date will be announced later.

Mrs. Jas. Clark is returning this week from an extended visit at Winnipeg and other points.

Major Schoof left this week to patrol the fishing streams in the Crown Nest Pass and surrounding district.

The U. F. A. meeting on Wednesday forenoon drew a packed house to hear Premier Brownlee and the local candidate, Gordon Walker.

The big Rex Beach picture, "The Barrier" is coming to the Rex theater Friday and Saturday nights this week. Don't miss seeing this picturization of the great novel.

The heavy rains have made considerable trouble in various parts of town through seepage of water into gas pipes. Several service pipes had to be dug up to get the water out.

Rex Beach's "The Barrier" is coming to the Rex theater Friday and Saturday nights, June 25-26. Norman Kerry, Lionel Barrymore and Henry B. Walthall are in the cast.

Mrs. J. B. Humphreys received a telegram on Monday from Mr. Humphreys announcing the death of his mother, at Eagle Grove, Iowa. Mr. Humphreys had been called there some months ago by his mother's serious illness with cancer.

Copious rains have fallen in this district. Last Friday afternoon rain to fall about 3 o'clock and continued for over 30 hours. The rain gauge at the School of Agriculture registered 4.12 inches during this time. The total precipitation here for the month of June thus far has been 6.1 inches, the heaviest June precipitation in several years. Seasonably warm weather is bringing crops along very rapidly.

To the Fishermen of Alberta and British Columbia

Last year a good many fishermen came to the mountains without a permit to fish. When I asked them why they did not buy their permits before starting they replied, they expected to buy of the forest ranger or of me. This is not lawful, but I have not proceeded against anyone who bought the license of the ranger after I discovered them. This year my orders are to arrest anyone who is found fishing without a license anywhere in Alberta or British Columbia.

Gustav H. Schoof, Fish, Game and Fire Guardian and Constable in Alberta and British Columbia.

MARRIAGE

Forbes—Strogen

At the St. Andrews church, on the afternoon of Sunday, June 20, by the Rev. Geo. G. Welber, Nellie Elizabeth Strogen of Salmon, B. C., and Arthur Ernest Forbes of Clareholm were united in matrimony. Mr. and Mrs. Forbes will take up their residence in Clareholm.

Card of Thanks

The Winden family wish to express their sincere thanks to all who assisted and expressed sympathy during their recent bereavement also for the beautiful floral tributes.

The Tea Kettle Inn, opposite the station, will open shortly.

OBITUARY

Mrs. Thos. D. Lewis

An old resident of Calgary and Clareholm, Alberta, in the person of Mrs. Thos. D. Lewis, passed away at her home in South Pasadena, California, on the 10th day of June, 1926, at the age of 70 years and 4 days. Her husband and two daughters were present with her through her last illness, and at her bedside at the time of her death.

Catherine Harry was born at No. 5 Biddulph Street, Llanelli, South Wales, on June 6th, 1856. Her life until the time of her marriage was spent with her parents, Mr. and Mrs. Wm. Harry. Her father, at the time of his death, being the oldest engine driver in South Wales.

She was united in marriage to Thos. D. Lewis on February 5th, 1884, to which union were born five sons and two daughters, Wm. Harry, John, Harry, Thos. Penry, Gladys Ann, Mabel Glyn, Alfred, Gladstone, and Glyn Myrddyn.

Bees her husband, Mrs. Lewis leaves to mourn her loss, five sons, two daughters and eight grandchildren.

The remains were brought to Calgary where private services were held in the Central United Church which was always dear to the deceased. The services were conducted by Rev. W. E. MacNiven of Wesley United Church, a former pastor of the family. Their choice for his lesson, John xiv, and for the text, "I have fought a good fight, I have finished my course, I have kept the faith." 11 Tim. 4, 6, 7. He spoke the fine spirit of patience Mrs. Lewis had displayed during her long illness, and how bravely she fought her fight, and how nobly she clung to the highest things of life. He paid fine tribute to her kindness of spirit, and her strong trust in God her savior.

The flowers were profuse and beautiful and expressed in a mute way, the esteem in which she was held by all her friends.

Beautiful songs were rendered by the Hadyn Quartette.

She was borne by her sons to her final resting place in the Burnside cemetery.

All who knew Mrs. Lewis feel that they have lost a dear friend.

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of Matthew McNaught, late of near Granum, Alberta, Farmer, deceased.

Notice is hereby given that all persons having claims upon the estate of the above named Matthew McNaught who died on the 16th day of November A.D. 1925, are required to file with the Royal Trust Company by the 10th day of July A.D. 1926, a full statement duly verified of their claims and of any securities held by them, and that after that date the Executors will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to their knowledge.

Dated this 27th day of May, A. D. 1926.

The Royal Trust Company
712 First Street West,
Calgary, Alberta.
Executors of the Will of
Matthew McNaught, Deceased.

TOWN OF CLARESHOLM

CULTIVATE THE CUSTOM OF COMING TO CLARK'S

Here Is What "The U. F. A." The Official Organ For the Province Had to Say of Capt. Shaw, Liberal Leader, As Late As Sept. 15, 1925

CAPT. J. T. SHAW

CAPTAIN SHAW

"The announcement that Captain Shaw, who has represented West Calgary in the House of Commons as an independent member for the past four years, will not be a candidate in the forthcoming election will be received with the deepest regret, not only in all parts of Alberta, but among forward-looking people throughout the Dominion.

"Capt. Shaw's withdrawal from public life would be a very serious loss to Canada. He made his mark in the last parliament, and he is recognized today as a parliamentarian of independent spirit and of outstanding ability and courage. He is one of a still small group of men in the federal sphere who have been paving the way for a real advance from the petty personal politics of today, to constructive and genuinely progressive statesmanship. His early return to public life will be hoped for by all who are familiar with his record of service in the parliament recently dissolved.

"Since the announcement of Mr. Shaw's intention not to be a candidate very great pressure has been brought to bear upon him in Calgary, in the hope that he will reconsider his position. We trust that he may yet decide to allow his name to go before the electors on October 29th."

MARK YOUR BALLOT THROUGH

Do not be satisfied by marking No. 1 for your own party, but mark your second choice of the other two candidates.

MARKING YOUR SECOND CHOICE

In no way interferes with your first choice. Your first choice is not eliminated unless your candidate is low man. If you "plump" for one candidate, it means merely that you make no second choice of the other two, if your candidate should be eliminated.

Vote 1 For The Liberal Candidate

If you have determined to vote No. 1 for another candidate, then vote No. 2 for Liberal Candidate.

Advtg. Inserted by the Provincial Liberal Party

Twelve Reasons For Electing Liberals

1. The Liberal Party stands for a more business-like administration of Alberta affairs. The present government is without business mind, without business experience and has been without business success. It is a Class Government which is divorced from business entirely.
2. It stands for greater economy in administration. The present government has increased the debt of the province in five years by \$22,000,000 with nothing permanent to show for it. It has been more extravagant than any previous administration, or any other in Canada.
3. It stands for more progressive administration. The present government has nothing to show for its five years of office. It has passed no constructive legislation. It has delayed all the serious problems.
4. It stands for more active development of the unsettled areas. The present government has made no advance since it took office.
5. It stands for better development of agriculture. Capt. Shaw objects to bringing the pests into politics, but his record as a member in Ottawa shows his enthusiasm for co-operative marketing, his vigor for cheaper transportation rates, his insistence on the removal of all burdens which have been preventing development.
6. It stands for better educational facilities. The present government has been sacrificing education and burdening the department with useless educational fads.
7. It stands for better health organization and encouragement for hospitals. There has been no development in the health department since 1921.
8. It stands for honest and efficient administration. A fair distribution of the expenditure on public works.
9. It stands for honest distribution of the province into ridings.
10. It stands for justice to the returned man in the province.
11. The record of the Liberal party has been one of development and progress. It has to its credit:
 1. The settlement of the province.
 2. The organization into municipalities.
 3. The destruction of railway, lumber and telephone monopolies which threatened its destruction in early days.
 4. Farmer-legislation such as co-operative elevator act, the farm machinery act, direct legislation.
 5. The beginning of labor legislation, which has remained unimproved. This includes the Factory act, the Workmen's Compensation act, and other similar legislation.
 6. The development of the vast Peace River area.
 7. The organization of schools, the creation of the Provincial University, the Institute of Technology an Art and the Farm Schools.
 8. Franchise for women and all legislation safeguarding the rights of women.
 9. Hospital legislation and all progressive health legislation.
 12. It has at its head a man who has wide experience in legislation, who has at his back outstanding representatives, not of one class alone, but of all classes in the province—farmers, labor men, business men and professional men.

Better

McLaughlin-Buick, Always a Good Car—Now Better!

BETTER PERFORMANCE

New refinements give McLaughlin-Buick greater power and speed. The Sealed Chassis and Triple-Sealed Engine protect all working parts. The Six-Cylinder, Valve-in-Head Motor delivers seventy-five actual horse-power. Mechanical Four-Wheel Brakes give positive braking in all weathers and temperatures. Torque-tube Drive, Cantilever Springs, Multiple Disc Clutch and many other features add still further to McLaughlin-Buick's BETTER performance.

BETTER APPEARANCE

Fine, Fisher-Built, Closed Bodies—graceful, low lines—exquisite finished interior fittings—high-grade plush upholstery—highly-polished Duo Finish in colors—mark the BETTER McLaughlin-Buick as a car of grace and beauty.

BETTER VALUE

The aim of McLaughlin-Buick has been a BETTER car. Public acceptance, resulting in increased sales, has made it possible to produce and sell this BETTER McLaughlin-Buick at even lower prices.

The new low GMAC financing rates are available to purchasers of McLaughlin-Buick on time.

McLAUGHLIN-BUICK

WORLD HAPPENINGS
BRIEFLY TOLD

The City of New York generates and uses about 10 per cent. of all electric energy generated in U. S.

Conquerors like those used on American railroad engines are being introduced on automobiles in London as a safety device.

After being published continuously for just over 21 years, the Red Deer News has ceased publication. It was sold to the Red Deer Advocate.

Out of a population of over 20,000, only 1,500 residents of Saskatoon will be liable to pay city taxes this year.

A liberty bell made of 20,000 electric lamps, and as tall as a six-story building, is to be a feature of Philadelphia Sesqui-centennial.

Had a severe battle been taken among the miners' wives, says Emmanuel Pankhurst, writing in The London Sunday Express, the miners' strike would never have been called.

The Canadian Club of New York has a total membership of 1,200 and has increased at the rate of one member per day during the last three months.

Women and girls in the West Ham Guardians' Central Home, London, Eng., detained under the provisions of the Lintacy Act, are to be allowed to visit the local cinema once a week, at the expense of the guardians.

One hundred dead and more than 250 injured have been removed from the mass of mud, lava and rocks precipitated by the eruption of a volcano in Tokachi province, Hokkaido Island, Japan.

John H. Fox, deputy receiver of taxes at Long Beach, has installed four tax gas guns and a big gun for an alarm. Cashiers can release the tax gas by stepping on knobs on the floor.

Receipts of taxes at the office at this amount to \$350,000 in a day.

Mexican bandits have captured two Americans and are holding them in Mexico for a ransom of \$500 per head, according to advices received from the American consul at Tarraco. C. C. Birken, a mining engineer, and a man named Gallager are the men held.

Next Generation Taller

Gain in Height and Weight Predicted By Nutrition Experts

One will outstrip their fathers in height and weight, and daughters will top their mothers by a generous inch or two in the opinion of two nutrition experts who attended the national health congress at Atlantic City, N.Y.

"Longer and stronger bones are some of the results of correct nutrition that we are beginning to observe in children today," said Miss Miriam Blichner of the United States department of agriculture told the Associated Press.

"The gain of an inch in height and a corresponding gain in weight may be looked for in the next generation, because of our much better diet habits," said Dr. Samuel J. Crumline.

What Future Will Show

The Japanese empire has a population of over 82,000,000. The growth is threequarters of a million a year. Japanese papers refer to the fact that Siberia, Mongolia, Manchuria, and South America are open to Japanese emigration, but the United States and Australia are closed to them. The opinion is expressed that the future will show which is the stronger—natural law or man-made legislation. Kingston British Weekly.

Walnut Is King Of Woods

Walnut appears to be the king in commercial hardwood lumber, measured in cost standards. This assertion is the only species of wood used generally for lumber that costs more than at any other time in its history. Lumber Trade Journal.

German Professors Discover New Star

Ten Million Years Old and Brighter Than Sun

A new star has been discovered, an unassuming star in the fourteenth magnitude, 1,600 times as faint to be seen with the naked eyes, flashed up in a small spiral nebula which appears as big as a dime at a distance of 20 yards.

In reality, it is a star of 10 million times brighter than the sun, flashing up in an island universe of almost 16,000,000 light years. This means we are looking into the past of our distant cousin universe, for the catastrophe which gave birth to this new star happened 10,000,000 years ago, long before the glacial period on earth.

New stars are not a very common occurrence in the sky. The last one appeared in May, 1925.

This last one was discovered at Heidelberg, Germany, by Professors Max Wolf and Reinhold. The good news was immediately wired to Copenhagen and thence to the Harvard observatory, the hearing hours for astronomical news in America. Telescopes all over the country were pointed at the nebula and soon the existence of the new star was confirmed on plates taken at Harvard.

The Orphan Colt

Advice As To Feeding Young Colts From Time of Birth

(Manitoba Agricultural College Note)

Occasionally the mare dies at foaling time or has no milk for her foal. This presents a rather serious problem, one that can be dealt with successfully if patience, vigilance and common sense be the keynote of treatment. It is especially worth while to raise a very good draft foal.

Statistics show that "unless the rate of replacement is increased above what it has been during the past two years, there will gradually develop in North America a decided decline in our horse population." Raise the big end with quality and the small end by doing so good breeding and judicious feeding from colt-hood to maturity.

The horse makes one-half of his weight during the first year of his life. The best substitute for mare's milk is milk from a cow and preferably from one yielding a low percentage of fat, according to Professor H. R. Somnerfield, Animal Husbandry Department, Manitoba Agricultural College.

Two tablespoonfuls of sugar and warm water to dissolve; then 2 to 5 tablespoonfuls of lime water and enough fresh milk to make a pint. Feed about one-fourth pint every hour for the first few days, always warming to blood heat. A satisfactory method of feeding the foal is to use an automatic nursing bottle with a large nipple. Thoroughly cleaned and sealed before each meal. As the foal grows, the amount of milk may be gradually increased, the period between feedings lengthened and whole milk substituted.

After a few days, six feedings a day will suffice and later, only four. At three to four weeks of age, the use of oats may be stopped, but it is well to continue the lime water. In five or six weeks, sweet skim milk may be gradually substituted for whole milk and after three months the colt may be given nearly all it will drink three times a day. The towels should now freely, but if snow covers, feed from 2 to 4 tablespoonfuls of mixture of sweet oil and pure castor oil shaken up in milk, stopping the feeding of oil once may be stopped, but it is well to continue the lime water. In five or six weeks, sweet skim milk may be gradually substituted for whole milk and after three months the colt may be given nearly all it will drink three times a day. The towels should now freely, but if snow covers, feed from 2 to 4 tablespoonfuls of mixture of sweet oil and pure castor oil shaken up in milk, stopping the feeding of oil once may be stopped, but it is well to continue the lime water.

Instead, only sweetened warm water with lime water added. At the earliest possible age, the foal should be fed solid food, such as crushed or whole oats, bran and a little linseed oil meal and legume hay. For exercise, let the orphan have the run of a lot or grass paddock.

Farm Help In Demand

About four thousand men have been about on Alberta farms this spring and the demand has not been fully met, on Walter Saulton, commissioner of labor, reports.

Smartly Correct

This season the two-piece frock rules over a wider domain than ever, and on many days, the lines of its skirt extend from morning to evening. Therefore, it must be practical, yet combine as well, a semi-formal charm for festive events.

The model pictured here is a typical example of a sports costume that is smartly correct for either a morning of shopping, or a afternoon of bridge. The jumper shows a high, turned-down collar, joined to a vester with button trimming, and oddly-shaped patch pockets that support a narrow belt. It has long set-in sleeves gathered to deep cuffs at the wrists. The skirt, attached to a body lining, is hemmed at the front only. No 1267 is in sizes 16, 18 and 20 years. Size 18 years requires 1 1/2 yards 36-inch plain material for skirt, with 1 1/2 yards lining for bodice; top; blouse requires 2 1/2 yards 36-inch material for bodice and skirt, and 1 yard plain contrasting. Price 20 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress maker. Price of the book 10 cents the copy.

Plan Jack Miner League of Canada

To Honor World Famous Naturalist and Conservationist

A movement for the honoring of Jack Miner, world famous conservationist and student of natural history, has been started by Essex County for the organization in every community of the Dominion of the Jack Miner League of Canada.

The object of the league is to interest more people in the study of natural history, plant life, reforestation and conservation of the wild bird life on the continent.

A bird sanctuary Mr. Miner conducted at his home in Essex County is known as the home where all birds may find shelter.

Canada's Coal Supply

The time is rapidly approaching when domestic fuel cannot be produced from across the border within or Canadians wish to import it or not. The country's interests demand that under these circumstances, independent of that source of supply should be assured by the encouragement of the industry within our borders.—Essex Journal.

Some men admit that they are self-made, while there are others who blame it on their wives.

Canadian Granite For War Monuments

Quebec Quarries Furnish Stone For Memorials in France

Fifty-four pieces of granite from the quarries at Bedou, Que., have been shipped to France to take their place in the eight monuments that are being erected on the Belgian and French battlefields, to commemorate the heroism and hardiness of Canadian Army Corps. Six of the blocks weigh fifteen tons each, and they will be used as the central shafts in these memorials. Each central block will bear inscriptions in English and French describing the event commemorated.

The monuments mark some of the greatest engagements in which the Canadian Army Corps participated. The victory of Ypres will soon be commemorated finally, one at St. Julien, one at Hill 60 and the third at Passchendaele.

The Canadian battle will be commemorated by two, one at Bourlon Wood and the second at Drocourt. Vimy Ridge will have one, and one each goes to preserve the memory of the Battle of Amiens, at Le Quenel, and the fighting on the Somme, at Conchate.

The concrete construction is well advanced at Vimy, and the masonry work will begin this summer. As the monument includes a number of sculptured groups and figures, however, it will be several years before it is completed.

All the sites have been treated by the commission in a most effective way. Their plans include retaining walls and landscape gardening, flight of steps and terraces, as well as pathways and flagged courts.

United States Sitting Tight

Detour Nations Are Having Hard Time To Make Progress

Perhaps some day Uncle Sam may benefit benevolent enough to follow the policy of Great Britain succeeding the Napoleonic wars, by which enormous continental debts were cancelled, but in the meantime he is sitting tight.

The debtors nations are trying to devise ways of making payments. They cannot pay in gold because of the United States tariff wall. To raise gold they must undervalue their Sam in other markets, which is difficult. And if they sell there they must also buy in other markets, thus nullifying our United States imports, which would not contribute to leniency on Uncle Sam's part.—Toronto Globe.

Sees Its First Automobile

Donegal Village Files Flags in Honor Of Occasion

This little old-world hamlet in the county of Donegal is celebrating the appearance of the first automobile in its midst. In honor of the occasion all the residents hoisted flags.

There are numerous villages in the British islands which are still living peacefully in the days of long ago, unmarked or marred by outward show of modern progress, but comparatively few can boast of avoiding the march of the automobile.

Engine Driving Exciting

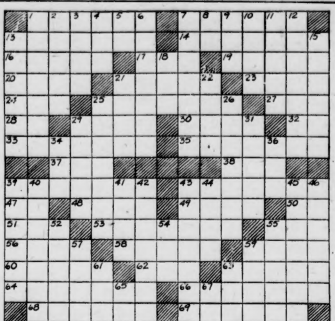

When driving a locomotive the engineer and the fireman have many more things to do than the public knows.

Motor cars, pedestrians, broken rails and stalled trains provide so much excitement for those in charge of the engine that investigation shows most men of the throttle go gray between the ages of thirty and forty.—New York Times.

Fruit Growing In B.C.

Representatives of nurseries working in the various fruit districts of southern British Columbia, report splendid prospects for young stock during the spring months. The Coldeston Hatchery in the Vernon district, recently planted seventy acres in new trees. Such indications augur well for the future of the fruit growing industry of this province.

Can Record Message Sent To Brain

Discovery Made By Professor Adrian of Cambridge University

By experimenting with the apparatus used in the reception of wireless, Dr. E. D. Adrian, F.R.S., of Cambridge University, England, has evolved an instrument which makes it possible to record the messages that travel along the nerve centres to the brain.

The instrument has three tubes, an amplifier which magnifies the nerve messages 2,000 times, and a photographic plate. The tubes receive the messages as they would receive wireless waves. The nerve messages are recorded on the photographic plate in the form of dots and dashes.

Explaining his discovery, Dr. Adrian says: "If we touch the skin or prick it with a pin each nerve fibre which is stimulated sends a message to the brain in the form of a series of small electric oscillations called nerve impulses."

"The impulses in each fibre are so small that until the advent of wireless it was impossible to detect them. However we knew that they were likely from other lines of work. The tube amplifier that made it possible to magnify several thousand times, and the impulses can be recorded by a special instrument called a capillary electrometer, which traces the electric changes on a photographic plate."

Sung Cures Dumb

Singing as a cure for faulty speech has been tried with remarkable results by the Vocal Therapy Society of London, of which the Duke of York is president. One ex-service man took part in the singing classes, regained the power to articulate and now is a commercial traveller.

New Class For Chicago Show

This year's International Show at Chicago, Nov. 27 to Dec. 4, will have a new class for swine carcasses of bacon type, the first of its kind for the big show. The management has also restored the class for Round-bell hogs.

Airship Experts Predict that within ten years we may have 400-ton airships, each of which will carry 4,000 men, with equipment equal to ten cars-loads of freight.

For Infants

The most reliable infant food when nature's supply fails. Since 1897.

CHAPTER VI.

"As a rule Joanna ran up the stairs that led from the first floor of the rooming house, once a pretentious residence, to the second floor, where she occupied a one windowed room made by a flimsy partition across what had been the dining room of more glorious days. But she had not drawn room only, was conscious that Joanna walked up slowly this time. She heard her open her door and close it softly, carefully. Usually Joanna slammed her door with a bang and a song.

Mrs. Adams examined her \$500 note, turned it over and looked curiously at the yellow back, held it closely that she might read the various engraved assurances that it was a solemn symbol of \$500 real money. And she looked at the grumblings in the petty howl as intently as if she were counting the petals. But she seemed to be detached. There always had been a soft spot in Mrs. Adams' heart for Jo. Somehow this soft spot was hurting just now. Her son lit upon the bundle Joanna had kicked into a corner. That was like Jo. She'd have bundles all over the house if they contained anything that had been supplied by something else. The landlady regarded this bundle with some trepidation, gathering in her eyes. She was laboriously. Besides the flowers she put down the \$500 note. Then she went over to the corner and picked up the package.

For a time, she held the cumbersome parcel in her arms, staring down at it. Intriguingly she untied the cord and unwrapped it. She folded the wrapping paper neatly and put it down. Then she held up the coat, and let it open. This had been Joanna. The very breath of her, the zest and the prelude of her. It was a familiar form, but enough to exert its purpose. Its lines had the swag, even if its lining was only meretricious cotton.

CARRIED WIFE TO BED

Suffered So She Could Not Walk. Restored to Health by Lydia E. Pinkham's Vegetable Compound

Mining Ontario. "I am a practical nurse and I recommend Lydia E. Pinkham's Vegetable Compound to all suffering women. For three months I was almost helpless and could not sit at the table long enough to drink a cup of tea. Many a time my husband carried me to bed. I would be so weak. Then he read the paper of a woman suffering and I did who got better after taking the Vegetable Compound, so he went and got it for me. When I had taken three bottles I was just like a new woman and had again health and strength. When I feel any bearing-down pains I always take it; sometimes two bottles or whatever I need. It is my only medicine and I have told many one about it. Any one wanting to know about Lydia E. Pinkham's Vegetable Compound, please write to her. I do all I can to recommend it for I feel it is good and strong to it."—Mrs. Nell, Bowdoin, N. B., May 1924.

When you feel broken down, nervous, and weak sometimes this is the best feeling of fear which sometimes comes to women when they are not well. Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps you in taking regularly and persistently it will relieve this condition.

Made Knight of Legion of Honor

Former Cook in Canada Decorated by France For War Service

Jean Bourget of Brittany, who gave a leg, an eye and several fingers for his country in the war, has been made a Knight of the Legion of Honor by the French Government. When the war came Bourget was a cook in Canada and had a wife and three children. That he took the first boat home and enlisted in the infantry, having no older son to settle with the Franks since his father lost a leg in the 1870 war. He was wounded twice on the front, but stuck to his post until the day's fighting was over. He was three awarded the Croix de Guerre for his bravery in this action.

perhaps there were no medals hanging on her soul, but she was safe in visiting her mother and father where they could go to them today. There'd give lots of room to give her an argument, counter-charge, she'd slip up to the knees and stockings so that she'd her legs stretched through and about some other things, but she could look straight in the face and say the name. It would be so splendid if they, or one of them, could be here.

This climax to her reflections and her memories of the picnic occasion revived the glow in the skin, eager body. There wasn't anybody to share with her, except John, so she decided to just let it go at that. He'd help her, too, to reason out something about the thing that happened to her. She by herself simply couldn't.

By late afternoon, what with some of the embroidery and the letter (which she was ready for her descent upon the sick soldier. She tried to forget the logical end of the day, but couldn't. Courageously she had slighted the shops and stores where girls of the counters and offices got the copies of various modes. She boldly went into the avenue itself, even into the upper section, where she was admitted as an award of honor which, earned, brings a marvelous deference and which was called "Mademoiselle." The result upon the sick soldier was a sudden breath of some exquisite rapture that sweeps the senses into a new century.

Joanna had timed her visit cleverly; she appeared during the half between the elderly shoppers who finish early and the last minute crowd of the hurrying, belated ones. Trafficking behind a spacious grande dame who was the last minute crowd of the hurrying, belated ones. Trafficking behind a spacious grande dame who was the last minute crowd of the hurrying, belated ones.

With her ready dancing, she was at every fair and bazaar, and the counter—the faces of her workday friends—she paraded herself. "Good morning, young ladies!" At that moment Joanna's velvet was the silver tinkle of ineffable inner harmony. Three patronesses at the counter turned curiously to scan the newcomer. In the attitudes of the girls who served them they sensed a drama.

It was George, Joanna's best friend, and also one of Mrs. Adams' flappers, who was first to find her tongue. "Look what the stock's dropped!"

Then there was a rush. Joanna took ceremony, obedient to customers with bellows of varied color, and she alone of Mrs. Adams' flappers, who was first to find her tongue.

Then there was a rush. Joanna took ceremony, obedient to customers with bellows of varied color, and she alone of Mrs. Adams' flappers, who was first to find her tongue.

U. S. President's Creed

Public Men Could Do Worse Than Take Advice of Goats

President Coolidge is not a notable speechmaker. But on the occasion of his first inaugural as governor of Massachusetts he gave this as his creed:

Expect to be called a standstiller. Do not be a standstiller. Expect to be called a demagogue but do not be a demagogue. Do not hesitate to be a revolutionary as science. Do not hesitate to be a reactionary as the anti-revolutionary.

Which is not a bad one for a public man—Ottawa Citizen.

INDIGESTION BANISHED

Through the Timely Use of Dr. Williams' Pink Pills

The urgent need of all who suffer from indigestion is a tonic to build up the tone. Pink and distress after eating is the way the stomach shows it is too weak to perform its duty. Everything I eat seems to go down my throat. My stomach is so weak I can't eat anything. I feel as though I should vomit. I feel as though I should vomit. I feel as though I should vomit.

Dr. Williams' Pink Pills for Pale People. I have been suffering from indigestion for many years. I have tried many remedies but nothing has helped me. I have been told that I should take Dr. Williams' Pink Pills. I have taken them and I feel much better. I can eat now. I can sleep now. I can live now.

Searching For Trace Of First Immigrant

Anthropologist Believes Clue Can Be Found In Yukon

A search for the first American immigrant—the oldest inhabitant and the ancestor of the Indians found by Columbus—has been started by the Smithsonian Institution.

Dr. A. H. Hootch, National Museum anthropologist, has started for Alaska, across the fish of the light across the North Pole, to search along the river, coast and the interior for a few bits of pottery and bone, to prove scientifically the belief that the first Americans came from Asia.

Hootch set out for the Yukon, where legends still are told among the Eskimos of battles between Ahtas and the Eskimos, terrible struggles for the right of way past the fishing grounds that furnished livelihood to the Eskimos.

Hootch thinks the ancestors of the first American crossed the Bering straits, fifty miles wide at its narrowest point, and worked their way down the coastal plain into the temperate zone, where the warm climate caused many immigrants to develop the many tribes of "Americans."

Bits of pottery have been found in Alaska. The Eskimos who now live on the coast of Alaska do not make pottery. Through discovery and study of other specimens of pottery and primitive implements, Hootch thinks he can find a clue to the first visitors who probably came just after the glaciers receded.

Recent excavations in the Yukon have shown that the first Americans lived in the same places as the Eskimos do now.

While H. E. Dimmock was riding over his ranch near Tompkins, Sask., he picked up a stone axe, evidently an Indian instrument of warfare or a very useful cutting tool of the early days. It is about nine inches long, made of stone, with one edge about three inches across, and the other finished off to a conical shape. Around the centre of the axe are two rings, which are said to be about one-quarter of an inch.

It is supposed, according to an old-timer's viewpoint, that this axe was used by the Indians to split a split in a small sapling, the sapling being secured with bark and pitch between the two rings, which allowed the wood to grow around the axe, which made it very secure. After the sapling had grown to the proper size, it was cut off about two inches below where the axe was embedded, and again cut off on the other side of the axe, about 20 inches from the axe head, making a strong, non-breakable handle, while the axe head could not possibly loose, as it was securely grown by the wood.

This rare find was found on the northern slope of the Cypress Hills, about nine miles south of Lethbridge, and is quite an interesting specimen of Indian stone craft.

There She Was Neither before nor after. Sam had a nice, watch, which he exhibited with a fine air of superiority.

"What time is it?" asked Hattie. Sam hesitated and then extended the timepiece. "Dar she am."

"You can get this watch from me," said Hattie. "I'll give you five dollars for it. You can get this watch from me, I'll give you five dollars for it. You can get this watch from me, I'll give you five dollars for it."

"Too Cheap For Real Thing" "Blep right up, ladies and gentlemen," shouted the showman at the fair, "and see the woman get saved in two before your very eyes. Only a quarter."

"I'll risk that much," said a bystander, "though, of course, it must be a trick, otherwise 'twould charge more."

Rouging the lips is no longer bad taste. It is now possible to buy any flavor lipstick desired.

Peace River Homesteads Homestead entries at the Peace River land office for the year ending March 31, 1924, show an increase of 10 per cent over last year.

During the year ending March 31, 1924, the revenue derived from land patents, timber and grazing permits is far in advance of any previous year. During the year ending March 31, 1924, the revenue derived from land patents, timber and grazing permits is far in advance of any previous year.

The Peace River office has been open only one year—1917-1918—exceeds the past year in homestead entries.

Banish The Blues By Observing Nature's Basic Rule

Those who suffer from depression, listlessness and hesitancy can now trace the cause of these conditions to contamination.

The body is frequently brought about by overwork, nervous strain, lack of outdoor exercise, the use of improper food, but more frequently by the non-absorption of the supply of regular through bowel elimination.

Poisons from waste matter left behind are picked up by the blood and absorbed by the system, weakening the body and making it more susceptible to disease.

Najid, the scientific intestinal lubricant, corrects constipation in nature's own way by augmenting the supply of natural lubricant.

Najid, by softening the waste matter this permits thorough and regular elimination without the use of the intestinal muscle. It is gentle, safe and natural in its action, and can be taken for any length of time without any ill effect.

Ask your druggist for Najid today and remember—look for the name "Najid" on both bottle, label and package.

Prince Has Simple Tastes Heir to British Throne Is Lover of Magnificence

Many a wealthy young peer, looking on a shawl of diamonds upon the simple apparels which the Prince of Wales occupies at St James' Palace. The truth is, says the London Mail, the Prince is no lover of magnificence.

Had he wished, he could, of course, have set up a great country estate, something in the style of Burreigh-on-the-Hill, near Oakham. But he prefers to be unencumbered.

It will relieve a Cold—Colds are the commonest ailments of mankind. If neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation, soothe and thoroughly soothe and strengthen them.

Neither before nor after. Sam had a nice, watch, which he exhibited with a fine air of superiority. "What time is it?" asked Hattie. Sam hesitated and then extended the timepiece. "Dar she am."

VOTE "1" FOR GORDON B. WALKER

In voting for him, candidate an elector should exercise the same care as he would in engaging a manager for his business.

The main question should be "What are his qualifications and his record?" You judge a prospective employee, not on what he promises to do, but what he has done.

The Liberals have a record of sixteen years of office in this Province. This record they do not and cannot defend. The public, however, has not forgotten it.

The Conservatives have no record at all. Their offer, as that of the Liberals, would mean a return to the party system, and all that implies.

The U.F.A. ask for your vote on June 28 on their record for the past five years. They offer a continuation of sound business administration for the benefit of the people as a whole, and co-operation in place of party division.

The only argument Liberals and Conservatives offer is that of promises. The Government's argument is performance.

During the past five years, the cost of administration has been reduced 14 per cent., the Civil Service has been transferred from a basis of patronage to a basis of merit, a real highway policy has been put into effect, health and education services have been increased, etc. Efficiency is much greater in every department of government as a result of transformation from a basis of party favoritism to one of business administration.

The Government have had to face the opposition of the daily press, they have had to shoulder the legacies of railways, irrigation schemes, cow bill, seed and feed relief payments, etc., responsible for our present debt. They have had to face the inaction of the Liberal Government in Ottawa with regard to natural resources, railway and colonization responsibility, provincial control of power and mineral development, etc. But despite these handicaps they have made remarkable progress.

Note the improvement since 1921.

CONSERVATIVE PRINCIPLES ARE RESTATED BY THE CONSERVATIVE LEADER

A. A. McGillivray Sets Forth in Plain Language What the Provincial Conservative Party Stands For in Coming General Election

Co-Operative Marketing Extension Is Advocated

Proportion of Monies Expended on Roads to Go Toward the Maintenance of Country Roads as Well as Main Highways—Encourage the Inflow of Capital and Immigration to Supplement Efforts of Dominion Government.

Speaking at Rockyford on Thursday afternoon, June 18th, in support of Hugh Miller, Conservative candidate in the Gleichen riding, A. A. McGillivray, leader of the provincial Conservative party, reiterated the items in the policy of the party that he has stated from different platforms in Alberta since being elected leader in August, 1925.

In his usual fighting style, Mr. McGillivray reviewed the record of the old Liberal administration and the record of the present government. Summing up his appeal to the electorate following the declaration of political principles, Mr. McGillivray said the Liberal party could not go back into power and its record could not be hidden under the cloak of one new coat.

Give Them Chance

The present government has failed to cope with public questions, the chief of which are redistribution, the northern railways, natural resources and the finance problem. What it has had to face, then, why not give the provincial Conservative party a chance to demonstrate what it can do? Mr. McGillivray left here at 8:30 p. m. for Oyen and other points in Arcadia riding.

In reiterating points in the Conservative policy that have been enunciated by him from many platforms, McGillivray took the leadership of the party in August, 1925, Mr. McGillivray said, "I have not gone in for the form of political advertising that is known as the manifesto. I observe that the Liberal leader looked toward them in 1921. He issued one which commenced as follows: 'True representative government to replace the party system. Independent candidate in West Calgary outlines constructive proposals for the establishment of a democratic government freed from partisanship and partyism. Proportionate representation truly reflects popular will. Patronage system which is vital to the maintenance of party system, and is today a national scandal, will disappear under the reform method of election.'"

"In so much as the new manifesto of the Liberal leader commenced as follows:

"Liberal manifesto—J. T. Shaw, Liberal leader, issues statement of party policy, and in so much as this latest manifesto by Mr. Shaw, in so far as it does not contain a new book platitudes and glittering generalities, is partly taken from the programme of the Conservative party, it may be well for me to restate the position of the provincial Conservative party upon some of the principal issues, a position taken and given public expression to on the platforms of this country at times when Mr. Shaw was still an independent."

Conservative Platform
"The provincial Conservative party stands for the following:

"1. Redistribution whereby the number of constituencies will be reduced so that there will not be more than 45 members in the legislature. This reduction to be made having due regard both to population and to the sparsely settled areas."

"2. Reduction in the amount paid as seasonal indemnities of members by \$500."

"3. A determined effort to make of the United Farmers of Alberta organization something more than a mere political machine and to advance its development along social and economic lines."

"4. The encouragement of co-operative marketing. Even as supporters of the Conservative party brought Bairo to Alberta without thought of political advantage, so will the Conservative party support any move on the part of the farmers to form, without seeking political glorification."

Money for Roads
"5. A fair proportion of the monies (Issued by Provincial Conservative Association.)

expended on roads being deflected from spectacular trunk roads to farmers' market roads."

"6. In so far as it lies within the legislative control of the province, keeping check over grain elevators with respect to the weighing and grading of grain."

"7. A real soil survey of the drought areas of the south by the greatest agriculturalists available."

"8. Putting our provincial telephone system on a business basis."

"9. Furthering any practical scheme providing for rural credits."

"10. Equality of men and women under the law."

"11. Recognition of the fact that labor unions are as much an essential product of modern economic life as are the large corporations and that they tend to bring about equality in wage bargaining that would not exist if the individual had to bargain with the great corporations."

Right of Appeal
"12. Providing a right of appeal under the Workmen's Compensation board."

"13. Raising the scale of compensation for railwaymen in non-negligence cases to the level enjoyed by other classes of workmen."

"14. Equitable distribution of the burden of taxation for upkeep of the schools."

"15. A most careful consideration of all possible ways and means for providing security of tenure and a practical pension scheme for teachers."

"16. An examination of the school courses by education technicians with a view to making certain that our student body is not faced with an overloaded curriculum."

"17. Reclamation and sale on the proper terms of the E. D. & B. C. and Central Canada railways, with a consequent saving of nearly one million dollars a year."

"18. The obtaining of our natural resources on fair and equitable terms without any school question or other strings attached thereto. (The provincial Conservative party has stood for this since 1905.)"

Balancing the Budget
"19. The yearly balancing of the budget. In September, 1925, while advocates of this government were still saying that it could not be done without injuring essential services, the Conservative party took the position, as it does now, that the budget could and should be balanced in each year."

"20. A complete reversal of the former Liberal and the present government attitude toward capital by encouraging in every possible way that which has money to invest in the exploration and utilization of our natural resources of all kinds."

"21. A provincial immigration and colonization policy to supplement the efforts of the Dominion government to get people and to retain them when we get them, so that with more people amongst whom to distribute the load, we may hope to cope with our debt and our ever increasing burden of taxation. The provincial Conservative party is in favor of such an inflow of capital and of people, because the future prosperity of our people is inseparably associated with these."

"22. One system of voting for both city and rural constituencies."

"23. An immediate decision as to the Spence Lake water power project."

"24. More local influence in municipal affairs."

"25. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"26. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"27. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"28. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"29. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"30. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"31. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"32. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"33. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"34. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"35. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"36. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"37. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"38. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"39. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"40. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"41. A fair proportion of the monies (Issued by Provincial Conservative Association.)

"42. A fair proportion of the monies (Issued by Provincial Conservative Association.)

Voters Attention!

Directions as to the use of Preferential Ballot

The preferential ballot will come into general use for the first time in the forthcoming provincial elections. Every voter should be thoroughly conversant with the method of marking the ballot before attempting to vote. Read these instructions:

The voter must not use the X mark.

The voter must place the figure 1 opposite the name of the candidate who is his first choice, the figure 2 opposite his second choice, the figure 3 opposite his third choice and so on until he has voted for all the candidates on the ballot if he so wishes.

The voter may plump for one candidate alone, using the figure 1, without spoiling his ballot, but is urged to vote to the full extent of his choices, as it is only by doing this that the voter obtains the full benefit of this form of ballot.

The voter must not place more than one choice opposite any one candidate.

The voter must not make the same choice for more than one candidate.

The voter must not make any mark on the ballot not authorized by these directions.

Read these Instructions Carefully

JOHN D. HUNT,

Clerk of the Executive Council,
Government of Alberta.

The Bell With the Voice of a Woman

Canadian Pacific Here "Empress of Scotland" moored at Kootenay, near Hong Kong.

NOT far from the Temple of Nodai-ji, at Nara, Japan, there is a gigantic bell which weighs about forty-eight tons. It is 13 1/2 feet high, 10 inches thick at the rim, and 27 feet in circumference, and the volume of its tones is enormous and awe-inspiring. At times it seems as if there were a woman in the bell, weeping bitterly in the night, shaking bitterly during the day. Passengers making the Round the World Cruise on the Canadian Pacific liner Empress of Scotland heard it ring, saw the immense volume away.

About this famous bell there is a fantastic tale carried on the lips of old-timers. It is said that the bell was cast by a woman in the night, weeping bitterly during the day. Passengers making the Round the World Cruise on the Canadian Pacific liner Empress of Scotland heard it ring, saw the immense volume away.

Now went away to his workshop, where he spent the day and night, working for days and nights, making the incredible, watched over by his mother. One day he made a model, and one day at twilight, but as he was watching over his beautiful daughter rushed

Hop, "Inbelle!" thundered the Emperor. "May your foul carcass be devoured by demons. That you should, in similar language, for Hop had a beautiful daughter. She was as good as she was beautiful—indeed a rarity. To her, Hop sobbed out the story of his failure and the stupor of the Emperor. She listened sympathetically and nodded slowly and told Hop to start work immediately on the second bell. Again, the ancient servitor worked day and night, and one day at twilight, but as he was watching over his beautiful daughter rushed

HERE AND THERE

Reckhauling of 44 miles of double track of the Canadian Pacific Railway lines between Brockford and Montreal West, on the main line at St. John, Quebec and Brockford, should be completed by September. The effect of the rack will be to strengthen the tracks, eliminate dust and ensure smoothness of travel. C.P.R. tracks between Quebec and Ottawa, and Montreal and Brockford, have already been rackhauling in Eastern Canada.

The Trans-Canada Limited C.P.R. all-rail flyer from Montreal to Vancouver resumed her yearly summer season trips on May 16 when she pulled out of Windsor Station, Montreal, filled to capacity, the ten compartments, three drawing rooms and all sleeping berths having been booked some days prior to starting. The Trans-Canada Limited is the longest-distance all-rail train operated on the North American continent.

Charles E. M. Pherson, assistant passenger traffic manager, Western Lines, Canadian Pacific Railway, recently celebrated the 50th anniversary of his entrance into railway circles. He started in the ticket office of the Grand Trunk Railway, at Toronto, at junior clerk. On completing 40 years of service with the C.P.R., Mr. Pherson has served in Toronto, Niagara Falls, New York, Montreal, Boston, Saint John, N.B., and Winnipeg.

Travellers who arrived on the "Empress of Russia" from the Far East, and who crossed Canada in order to connect with the sailing of the "Empress of France" from Quebec late in May, stated that action had been started for the stabilisation of China and the end of brigand rule. Under the chairmanship of Sun Yen, son of the late president of Southern China, Dr. Sun Yat Sen, a meeting was held which may result in the coalition of all the forces of order in China.

A FINE BATHROOM

Modern fixtures have another advantage—they are easier to keep clean than the old-fashioned kind. Those beautiful smooth white surfaces can be kept in a glossy condition with a very little care—and there are no difficult corners where only an old maid could hope to clean successfully. Drop in and see our display of bathroom fixtures.
